Our mission

Since 1986, Smartware is a key actor in the business of personalization and test of contact/contactless secure elements (Smartcard, NFC microSD, M2M). Smartware is committed to support smartcard production leaders and smartcard equipment manufacturers for the development of their needs, whether technological, industrial, or geographical.

Our commitments

- **Increased Performance**
  - Boost your production and increase your yields

- **Enhanced Security**
  - Preserve the security of sensitive data

- **Modular Solutions**
  - Cover all various models and technologies

- **Investment Protection**
  - Rationalize equipments, tools, and human resources

- **Scalable Equipments**
  - Ready for memory capacity increase of your secure elements

“In a more connected world, citizen security needs, evolution of payment means and communication between people are constantly evolving.”
They trust SMARTWARE
